STATISTICAL REPORT

Aviation

**International airline activity
August 2023**

The Department of Infrastructure, Transport, Regional Development, Communications and the Arts acknowledges the Traditional Custodians of Country of the land on which we work and live.

We recognise and respect the continuing connections to land, waters and communities.

We pay our respects to them and their cultures and to their Elders both past and present and to all Aboriginal and Torres Strait Islander people.

Year ended summary figures.....	24-26
Explanatory Notes	27-28
Data Issues and Notes on Airline Services	29

HIGHLIGHTS – AUGUST 2023

- Sixty international airlines operated scheduled services to/from Australia during the month (includes four dedicated freight airlines but excludes airlines operating only via code share arrangements).
- International scheduled passenger traffic in August 2023 was 3.048 million. International passenger traffic continues to recover from the COVID-19 pandemic. Passenger traffic was 1.970 million in August 2022 and 56,357 in August 2021.
- Passenger traffic for the year ended August 2023 was 32.041 million. It was 10.325 million for the year ended August 2022 and was 1.188 million for the year ended August 2021.
- Total seats made available on international scheduled operations to/from Australia during August 2023 were 3.890 million – an increase of 59.5 per cent compared to August 2022. The overall seat utilisation percentage was 80.5 per cent in August 2023. It was 10.1 per cent in August 2021 and 82.7 per cent in August 2022.
- In terms of passenger carriage, Qantas Airways had the largest share of the market in August 2023 with 15.7 per cent of the total followed by Jetstar with 11.5 per cent, Singapore Airlines with 9.4 per cent, Emirates with 7.6 per cent and Air New Zealand with 7.0 per cent.
- The Qantas group – Qantas Airways and Jetstar accounted for 27.2 per cent of total passenger carriage in August 2023. The group's share was 29.6 per cent in August 2022 and 0.5 per cent in August 2021.
- Australian designated airlines – Qantas Airways, Jetstar and Virgin Australia (3.8 per cent) accounted for 31.0 per cent of total passenger carriage in August 2023. Their share was 31.9 per cent in August 2022 and 0.5 per cent in August 2021.
- Low Cost Carriers (LCCs) AirAsia X, Cebu Pacific Air, Indonesia AirAsia, Jetstar, Scoot Tigerair, Thai AirAsia X, T'Way Air and Vietjet Air accounted for 19.3 per cent of total international passenger traffic to/from Australia in August 2023. The Low Cost Carriers' share in August 2022 was 18.3 per cent and 1.8 per cent in August 2021.
- International scheduled freight traffic in August 2023 decreased by 0.7 per cent over August 2022 to 74,649 tonnes. Inbound freight traffic decreased by 5.4 per cent while outbound freight traffic increased by 6.2 per cent compared to August 2022.

Please refer to explanatory notes - paragraphs 4, 5, and 7 in particular.

Seat Factors shown in this table:

Traffic shown in this table for AirAsia X, China Airlines, Emirates, Malindo Air, Qantas Airways and Qatar Airways may differ from traffic shown in Tables 1 and 2 because of the inclusion in this table of total traffic into and ex Australia (for seat factor purposes) whereas Tables 1 and 2 include uplift/discharge traffic only. All other airlines report uplift/discharge traffic only. Currently, there are no other airlines operating via Australia, and therefore uplift/discharge traffic is the same as total traffic into and ex Australia for all other airlines.

Available seats have not been counted where passenger aircraft have been used to operate freight only services. However, this adjustment cannot be made for airlines that report monthly aggregates and that have operated a mix of passenger and freight only services using passenger aircraft.

(a) MEL data not received for the current month. Missing data has been estimated.

(b) Freight flights only.

**TABLE 6 INTERNATIONAL AIRLINES OWN STOPOVER REVENUE PASSENGERS,
AUSTRALIAN CITY PAIRS: August 2023**

City Pair Route	Total Passengers
TOTAL	0

Notes:

1. Own Stopover Revenue Passengers: The aggregate of revenue passengers uplifted at one Australian airport and discharged (excluding transit passengers) at another Australian airport by the same foreign registered international airline on which they entered or left Australia.
2. City Pair Route represents the aggregation of passengers travelling in both directions.
3. This data is additional to the information presented in tables 1-5 which cover only those passengers travelling to/from overseas airports.

Hobart (a)	..	4,480	2,581	32,969	>999.9%
Sunshine Coast (b)	6,420	512	3,989	11,157	179.7%
Norfolk Island (c)	1,878	291	..	2,601	..
Canberra (d)	41,713	255	..	2,374	..
Avalon (e)	221,514
Newcastle (e)	7,371
Port Hedland (e)	4,758
ALL AIRPORTS	23,573,629	1,188,115	10,325,263	32,040,541	210.3%

(a) Scheduled passenger services recommenced April 2021.

(b) Seasonal services only.

(c) Scheduled services recommenced September 2022.

(d) Scheduled services recommenced July 2023.

(e) No scheduled passenger services after March 2020.

Operations at several airports have been suspended during COVID-19

EXPLANATORY NOTES

INTRODUCTION

1. This publication continues the series of monthly publications presenting provisional statistical information on the scheduled operations of international airlines operating into/out of Australia.
2. The figures in this publication were obtained from reports submitted by scheduled international carriers and are the best available at the time of publication.

COVERAGE

3. These statistics show uplift/discharge data – These data detail, by direction, the revenue traffic between the actual points of uplift and discharge within each flight, aggregated for all flights within the period. It shows the movement of traffic between two airports not necessarily directly connected but within the same flight number. Typically, flight numbers change when an aircraft reaches its home country. This means that uplift/discharge data for the port in the operator's home country are likely to be overstated by traffic whose origin/destination point is beyond that port. For example, uplift/discharge traffic reported in this publication as Singapore could include traffic whose origin/destination is Europe.
4. These statistics cover revenue traffic carried by the operators of scheduled regular public international air transport services only and do not include charter traffic.
5. Flights with no revenue traffic uplifted from Australia or discharged in Australia are treated as positioning flights and are not included in this data collection. This mainly affects dedicated freighter flights where some flights outbound from Australia do not pick up freight in Australia.

PRODUCTION AND INTERPRETATION

6. Tables 1 and 2 show the country of the relevant uplift or discharge port served by that airline. For example, traffic uplifted/discharged between Sydney and Singapore by British Airways would be shown as Singapore traffic in Tables 1 and 2.
7. Table 3 shows figures for the country of service (or route) for each airline and therefore may not equate to the data in Tables 1 and 2. For example, the British Airways UK service identified in Table 3 could include passengers uplifted or discharged in Singapore as well as the UK; these passengers would be shown individually under those countries in Tables 1 and 2. The difference in treatment of data between Tables 1 and 2 and Table 3 is necessary in order to work out a meaningful Seat Utilisation figure for Table 3.

Figures shown in Table 3 may include total traffic into and out of Australia for airlines that fly through Australia (also necessary in order to work out a meaningful Seat Utilisation figure). Therefore, figures in Table 3 may not equate to figures in Tables 1 and 2. For example, passengers carried by Qantas Airways from New Zealand via Australia to the UK will be included in Table 3 but will not be included in Tables 1 or 2 as these passengers were not uplifted/discharged in Australia.

8. Table 5 – shows uplift/discharge passenger and freight data for city pairs with “same flight number” international flight connections.

9. Where figures have been rounded, discrepancies may occur between sums of component items and totals, and in percentage changes which are derived from figures prior to rounding.
10. Published figures may be revised where figures missing at the time of publication are received or misreporting/miscalculation necessitates revisions.

DEFINITIONS

11. The following definitions have been used in this publication:
 - (a) Aircraft Movement: A landing or a take off.
 - (b) Freight: The aggregate of all revenue freight uplifted or discharged in Australia.
 - (c) Inbound: Inbound to Australia/Australian international airport.
 - (d) Mail: The aggregate of all mail uplifted or discharged in Australia.
 - (e) Outbound: Outbound from Australia/Australian international airport.
 - (f) Revenue Passengers: All passengers paying any fare (frequent flyer redemption passengers are regarded as revenue passengers). In most cases, Revenue Passengers includes all passengers excluding Free Of Charge passengers and positioning crew.
 - (g) Seat Utilisation: The ratio of passengers carried to seats available, expressed as a percentage.
 - (h) Seats Available: Generally based on standard aircraft configuration, the aggregate of seats available on all flights operated over a particular service.
 - (i) Services: Scheduled flights over authorised routes which are listed according to the main ports involved.

SYMBOLS AND OTHER USAGE

- nil or zero
- .. not applicable

DATA ISSUES

During the period impacted by the COVID-19 pandemic, airlines that normally would only operate scheduled air services could also operate charter air services and where charter air services are not clearly identified, they may be included in the data in this publication.

Seat utilisation: Available seats have not been counted where passenger aircraft have been used to operate freight only services. However, this adjustment cannot be made for airlines that report monthly aggregates and that have operated a mix of passenger and freight only services using passenger aircraft.

NOTES ON AIRLINE SERVICES

There were no significant changes to services during August 2023.
